City Facilities to Close Early Today Due to Severe Weather

(LANSING) – Due to increased forecasted amounts of snowfall from the National Weather Service, City Hall, 54-A District Court and related city facilities, including community centers, will close at 3:00PM today and all non-essential personnel will be released.

Winter maintenance vehicles will be on city roads continuously throughout the storm. We expect to have main roads cleared for city employees, Lansing residents and all others to travel home safely at 3:00PM. Please drive with caution by keeping a safe distance from plow and salt trucks.

All city sponsored meetings, events and classes are cancelled from 3:00PM through the rest of the evening.

Essential city personnel involved in winter maintenance operations should consult with their supervisor to determine if and when they are to report to work.

Sign up for winter maintenance updates, including plow route information, by visiting www.lansingmi.gov/lansingalert. Emergency services continue to be available 24/7. Please call 9-1-1 if you have an emergency.
